

# Monthly Indicators

## October 2016

As we enter the final quarter of 2016, not much has changed since the year began. Market predictions have been, in a word, predictable. A relatively comfortable pace of activity has been maintained thanks to continuing low unemployment and mortgage rates. The one basic drag on market acceleration has been inventory decline. There is little to indicate that the low inventory situation will resolve anytime soon.

New Listings were down 14.2 percent to 538 in Stark County and down 26.3 percent to 28 in Carroll County. Pending Sales increased 24.1 percent to 428 in Stark County and increased 62.5 percent to 39 in Carroll County. Inventory shrank 28.7 percent to 1,312 units in Stark County and shrank 7.8 percent to 142 units in Carroll County.

Median Sales Price was down 3.0 percent to \$122,250 in Stark County and up 5.0 percent to \$120,750 in Carroll County. Days on Market in Stark County held steady at 72, and increased 57.3 percent to 140 days in Carroll County. Months Supply of Homes for Sale was down 32.7 percent to 3.5 months in Stark County and down 19.5 percent to 6.2 months in Carroll County, indicating that demand increased relative to supply.

Builder confidence is as high as it has been in more than a decade, yet the pace of economic growth has been slow enough to cause pause. A low number of first-time buyer purchases and a looming demographic shift also seem to be curbing the desire to start new single-family construction projects. As older Americans retire and downsize, single-family listings are expected to rise. The waiting is the hardest part.
