

# Monthly Indicators

## April 2018

Many sellers and builders are in a good position for financial gains, as the economy continues to favor putting existing homes on the market and building new homes for sale. We are finally beginning to see some upward movement in new listings after at least two years of a positive outlook. There may not be massive increases in inventory from week to week, but a longer-term trend toward more new listings would be a good sign. Low inventory should continue to create a competitive situation for buyers, causing price increases over the next several months.

New Listings were up 8.0 percent to 611 in Stark County while down 32.7 percent to 37 in Carroll County. Pending Sales increased 31.4 percent to 536 in Stark County and increased 123.5 percent to 38 in Carroll County. Inventory shrank 26.0 percent to 843 units in Stark County and shrank 41.0 percent to 102 units in Carroll County.

Median Sales Price was up 1.8 percent to \$129,000 in Stark County and down 28.3 percent to \$125,450 in Carroll County. Days on Market in Stark County increased 2.7 percent to 76 days in Stark County and decreased 26.7 percent to 143 days in Carroll County. Months Supply of Homes for Sale was down 29.0 percent to 2.2 months in Stark County and down 46.2 percent to 4.2 months in Carroll County, indicating that demand increased relative to supply.

This winter and spring exhibited unseasonal weather patterns in much of the country. As the seasons change to something more palatable, wages and consumer spending are both up, on average, which should translate positively for the housing market. Being quick with an offer is still the rule of the day as the number of days a home stays on the market drops lower. If that wasn't enough for buyers to mull
