

Monthly Indicators

October 2018

If the last few months are an indication of the temperature of housing markets across the country, a period of relative calm can be expected during the last three months of the year. A trend of market balance is emerging as we approach the end of 2018. Prices are still rising in most areas, and the number of homes for sale is still low, but there is a general shrinking of year-over-year percentage change gaps in sales, inventory and prices.

New Listings were up 1.0 percent to 106 in Wayne County and up 100.0 percent to 20 in Holmes County. Pending Sales increased 22.1 percent to 116 in Wayne County and increased 240.0 percent to 17 in Holmes County. Inventory grew 4.2 percent to 250 units in Wayne County while shrank 2.3 percent to 42 units in Holmes County.

Median Sales Price was up 10.1 percent to \$142,000 in Wayne County and down 22.7 percent to \$166,250 in Holmes County. Days on Market increased 39.6 percent to 74 days in Wayne County while decreased 38.8 percent to 52 days in Holmes County. Months Supply of Homes for Sale was up 3.6 percent to 2.9 months in Wayne County while was down 34.0 percent to 3.3 months in Holmes County.

Stock markets experienced an October setback, but that does not necessarily translate to a decline in the real estate market. The national unemployment rate has been below 4.0 percent for three straight months and during five of the last six months. This is exceptional news for industries related to real estate. Meanwhile, homebuilder confidence remains positive, homeownership rates have increased in the key under-35 buyer group and prices, though still rising, have widely reduced the march toward record highs.
